Machine Shop Capacity

OEM / ODM Service

Apart from our standard products, EMAX is highly willing to accept OEM / ODM request to design and manufacture custom-specified hardware. When you have a special demand you can contact EMAX for help: we offer the possibility to develop and produce the custom design and features. Due to our in-house R&D and manufacturing in our own production facilities or at suppliers nearby, we can quickly respond in terms of development and delivery.

OEM/ODM 

Offering different shapes, sizes and configurations; E-MAX has technical furniture expertise and focus on creating customer-specific solutions for control room consoles and desks. APEX series standard designs that can be used for a wide range of multi-screen applications - using a combination of standard core components and/or complete customized solutions can be developed. Desks are available with options for elec. height adjustment and standard height. We accept customization for worktop, color, and bezel of indesk distribution outlet.

Modern design

With a tough modular & modern design, the APEX series console desk is made for toughest 24/7 environments, and is becoming the solution in mission critical applications. Durable laminate worktop surface and a solid steel frame are built to stability even the most intense day-to-day users. Sit-to-Stand height adjustable mechanism meet ergonomic requirement of user.
